

CIT2011 INDIVIDUAL ASSIGNMENT 1

Name: Matthew Sullivan

Student ID: 2307072

Course: CIT2011 Web Programming

Assignment: Individual Assignment 1

Website Assets

The website uses images, HTML files and an external CSS stylesheet.

Student ID Image

Purpose: Displays my UTech student ID

Dimensions: 250px wide on desktop and 180px wide on mobile

Spider Icon

Purpose: Decorative icon used on the website

Dimensions: 50px × 50px

Content Images

Purpose: Images used within the content of the website

Dimensions: 250px × 180px

style.css

Purpose: Controls the colours, layout, font and responsive design of the website.

[ADD ANY OTHER IMAGES/ICONS USED ON YOUR WEBSITE HERE]

Colour Palette

The website uses a dark green colour scheme. CSS variables are used to maintain consistent colours throughout the different pages.

Dark Green

RGB: 36, 82, 55

Use: Main page background

Medium Green

RGB: 83, 126, 104

Use: Header, footer and main sections

Dark Muted Green

RGB: 52, 82, 67

Use: Navigation and alternating sections

Off White

RGB: 247, 243, 243

Use: Main text

Near Black

RGB: 24, 25, 26

Use: Main accents

Dark Grey

RGB: 32, 32, 32

Use: Borders

Link Grey

RGB: 47, 49, 51

Use: Hyperlinks

Typography

Font Family: Arial, sans-serif

Default Font Weight: 400 / Normal

Main Text Colour: RGB (247, 243, 243)

Arial is used throughout the website because it is simple and easy to read. Using the same font across all pages also keeps the design consistent.

Layout and Design

The website uses a simple left aligned layout. The main content has a maximum width of 950px.

The header uses a medium green background with a 6px dark left border.

The navigation bar uses a darker green background with a 2px dark bottom border.

Content sections have 20px of padding and a 3px border on the left. Alternating sections use a darker shade of green to help separate the information.

The design was kept simple and consistent without complicated animations or visual effects.

Github Repository

The source code and resources used to create my portfolio are stored in my GitHub repository.

W3C Validation

The HTML and CSS used for the website were checked using the W3C validation tools.

HTML Validation

Index.html

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for index.html (checked with vnu 26.9.27)

Checker Input

Show ☐ source ☐ outline ☐ image report ☐ errors & warnings only Options...

Check by file upload ▼ Choose File No file chosen

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Check

Document checking completed. No errors or warnings to show.

Used the HTML parser.

Total execution time 2 milliseconds.

Professional.html

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for professional.html (checked with vnu 26.9.27)

Checker Input

Show ☐ source ☐ outline ☐ image report ☐ errors & warnings only Options...

Check by file upload ▼ Choose File No file chosen

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Check

Document checking completed. No errors or warnings to show.

Used the HTML parser.

Total execution time 2 milliseconds.
